New Location of AMBA 2.0 and AMBA 3 AXI Release Notes

All AMBA 2.0 and AMBA 3 AXI release notes are now consolidated into one release notes document located at *DesignWare Synthesizable Components for AMBA 2/AMBA 3 AXI Release Notes*.

- You can find all release information for AMBA 2.0 in the "AMBA 2 Release Notes" chapter.
- You can find all release information for AMBA 3 AXI in the "AMBA 3 AXI Release Notes" chapter.

In each chapter you will find subsections for the individual product release notes, which contain all previous information except for the tables of STARs from each release. For STAR information, please refer to STARs on the Web (SotW) at:

> http://www.synopsys.com/dw/ipsearch.php

Additionally, the subsections for each of the product release notes have links to product-specific SotW pages, as well as a list of all product-specific SotW pages at the beginning of each chapter.

If you have bookmarks to individual AMBA 2.0 and AMBA 3 AXI release notes, please recreate them according to the above information.

Finally, the title of the installation guide has been changed to *DesignWare Synthesizable Components for AMBA 2/AMBA 3 AXI Installation Guide*. However, the location of this document has not changed.
